

Documents Needed Auto Refinance Application

Before getting started, here are some documents we may request at the time of applying. Please make sure the documents you're sending are current and show your name. We will need:

- **Proof of Registration** – The registration for the car you're refinancing. To prevent delays, ensure that your registration is up-to-date and that you've paid all outstanding fees.
- **Proof of Insurance** – The insurance card for the car you're refinancing. Ensure your name, VIN, and policy number are clearly visible. SafeAmerica requires that you carry full coverage insurance on your car. Full coverage insurance includes both comprehensive and collision coverage.
- **Lender Statement** - The loan account statement from your current lender that shows the account number and account that needs to be paid-off.
- **Driver's License and Membership Application (if applicable)** – If you are NOT a current SafeAmerica Credit Union member you will need to also complete the membership application by clicking on "Join" on the first home page and upload a current and valid state-issued driver's license.

To upload these documents, visit safeamerica.com/docs to access our Sharefile website. Just click the "Upload Documents" button. You will enter your name and email address, then choose "Department, Consumer Lending" as the recipient.
